

This survey is a vote. Either you are in favor - or against these massive land use changes (being done completely outside of the formal NSRP process and disregarding all input up to date). Supporting the questions on the survey, is supporting Park development and further restrictions. If you do not agree with these land use changes further restricting your access and recreation - below is the recommended responses (or variation of).

Question	Answer	Comment
Q1	All

Q25	Very Dissatisfied	I OPPOSE this area being made into a PRA, and want it to remain as a Public Land Use zone.
Kiska-Willson Public Land Use Zone		
Q26	Dissatisfied	This area should remain exactly as the Public Land Use zone it is, and government should work with the current clubs and recreation associations to support the current activites.
a		This area should remain exactly as the Public Land Use zone it is, and government should work with the current clubs and recreation associations to support the current activites.
b		This area should remain exactly as the Public Land Use zone it is, and government should work with the current clubs and recreation associations to support the current activites.
c		This area should remain exactly as the Public Land Use zone it is, and government should work with the current clubs and recreation associations to support the current activites.
Q27		This area should remain exactly as the Public Land Use zone it is, and government should work with the current clubs and recreation associations to support the current activites.
West Country Public Land Use Zone		
Q28		I OPPOSE this area being made into a Public Land Use Zone based on this Governments previous actions. This government needs to work PRIMARILY with the local communities, groups, users, and their representative associations CURRENTLY on the landscape before making Land Use Changes. This plan is supporting foreign funded foreign funded environmentalists who contribute nothing on our landscape - Instead of working with those affected by this plan.
Q29		I OPPOSE this area being made into a Public Land Use Zone based on this Governments previous actions. This government needs to work PRIMARILY with the local communities, groups, users, and their representative associations CURRENTLY on the landscape before making Land Use Changes. This plan is supporting foreign funded foreign funded environmentalists who contribute nothing on our landscape - Instead of working with those affected by this plan.
Final Comments		
Q30	Postal Code Activities Work Sector Organization Gender Age Correspondence	I COMPLETELY OPPOSE this Bighorn Country proposal, and it being done ahead of the NSRP. This government is simply implementing a plan by Yellowstone to Yukon, and not working in the interests nor consideration of Albertans.
